Hall Pass Visitor System

New visitor management system accomodates our visitors while ensuring a safe and caring learning environment for our students.
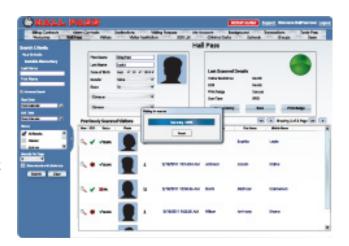

Safety and security are top priorities in the Platte County R-3 School District. We value the trust that families place in us with their children, and are always looking for innovative ways to make our schools safer and more secure. As we strive to create an even more secure learning environment for our students and staff, we are unveiling a new visitor management system, Hall Pass, beginning with the 2018-19 school year.

Hall Pass is a fast, effective way of ensuring that families and other visitors can get access to their schools while also keeping anyone on the sex offender registry and other restricted individuals away from students and staff.

How it Works

When entering a school, each visitor must present a government-issued ID at the front office. The ID is scanned, and in seconds, Hall Pass conducts a limited background check against the national database of registered sex offenders and a list of restricted visitors. If the visitor is found on the restricted list, and he or she has a pre-approved, legitimate, school-related reason for the visit (a parent meeting with the principal or teacher, for instance), that person will be supervised by a PCR-3 representative in a secure area away from students. Otherwise, school leaders and safety personnel will be alerted, and he/she will be politely escorted off the property.

If the visitor is cleared, Hall Pass will print a time stamped and dated photo badge, with the reason for and location of the visit, for the visitor to wear while on school grounds.

Forms of Identification Accepted

The following government-issued IDs are accepted:

- State driver's license
- State issued ID
- Passport card
- U.S. Military ID
- Permanent resident card

Safer schools mean better teaching and learning. Thank you for your help and cooperation as we launch the new Hall Pass visitor management system!
