I also encourage you to keep this handbook in a place where you can refer to it as needed.

This year will be a great year! It will be great because we won't allow it to be anything else. Thank you in advance for your efforts, and please don't hesitate to reach out with any questions. I am honored to be here with you and look forward to our work together. Let's chase greatness together.

Sincerely,

BULLYING (Board Policy JFCF)

The Platte County R-3 School District prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students. Definitions:

Bullying – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft, or property damage; oral, written, or electronic communication, including name-calling, put-downs, extortion, or threats; or threats of reprisal or retaliation for reporting such acts.

Cyber Bullying – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device, computer or pager. The district has jurisdiction over cyber bullying that uses the district's technology

resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

School Day – A day on the school calendar when students are required to attend school.

Designated Officials – The principal of each building is hereby designated as the individual to receive and investigate reports of bullying. Each building principal shall designate at least two teachers or administrators in the building who are authorized to receive and investigate reports of bullying in the principal's absence or at the principal's discretion. The district compliance officer appointed in policy AC or designee will serve as the district wide anti bullying coordinator. The district anti-bullying coordinator will receive all completed investigative reports from all buildings and analyze the reports to identify any information that would inform the district's anti-discrimination and anti-bullying education and training programs. In addition, the district anti bullying coordinator will assist in making any relevant reports as required by state and federal law.

Reporting Bullying – School employees or volunteers are expected to intervene to prevent student bullying, appropriately discipline the perpetrator, assist the victim and report the incident to the building principal or designee for further investigation and action. Any school employee, substitute or volunteer who witnesses or has firsthand knowledge of bullying of a student must report the incident to the building principal or designee as soon as possible, but no later than two school days after the incident. Students who have been subjected to bullying, or who have witnessed or have knowledge of bullying, are encouraged to promptly report such incidents to a school employee. Any school employee receiving such a report shall promptly transmit the report to the building principal or designee. If the bullying incident involves students from more than one district building, the report should be made to the principal or designee of the building in which the incident took place or, if more appropriate, to the principal or designee of the building attended by the majority of the participants in the incident.

Investigation – Within two school days of receiving a report of bullying, the principal or designee will initiate an investigation of the incident. Reports that involve students from multiple buildings will be investigated cooperatively by the principals of each building involved, or those principals may request that the district's compliance officer designated in policy AC conduct the investigation. If at any time during the investigation the principal determines that the bullying involves illegal discrimination, harassment or retaliation as described in policy AC, the principal will report the incident to the compliance officer designated in that policy, who will assist in the investigation. If the alleged bullying involves a special education student or a student with disabilities, the principal will also notify the special education director. The investigation shall be completed within ten school days of the date the report of bullying was received unless good cause exists to extend the investigation. Upon completion of the investigation, the principal will decide whether bullying or harassment occurred and, if so, whether additional discipline is warranted in accordance with the district's student discipline code. The principal will generate a written report of the investigation and findings. All reports will be kept confidential in accordance with state and federal law.

If the incident involved allegations of illegal discrimination or harassment, the principal's decision may be appealed in accordance with policy AC. Student discipline may be appealed when allowed by law in accordance with Board policy. The principal or other appropriate district staff will work with victims and their families to access resources and services to help them deal with any negative effects that resulted from the incident.

Consequences – Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's discipline code. Such discipline may include an administrative conference, detention, in-school suspension, out-of-school suspension, expulsion, removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent.

The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate. Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. The district will discipline or take other appropriate action against any student, teacher, administrator or other school personnel who is found to have violated this policy. Patrons, visitors, volunteers or others who violate this policy may be prohibited from district property or otherwise restricted. Employees who violate this policy will be disciplined or terminated.

Policy Publication – The district shall annually notify students, parents/guardians, district employees and volunteers about this policy and the district's prohibition against bullying.

A copy of this policy shall be included in student handbooks and posted on the district's website.

Training and Education – The district's anti-bullying coordinator will provide information and appropriate training designed to

assist employees and volunteers who have significant contact with students in identifying, preventing and responding to incidents of bullying. The district will provide education and information about bullying and this policy to students every year. The principal of each school, in consultation with school counselors and other appropriate school employees, will determine the best methods for facilitating the discussion.

Safe Schools Reporting

Platte County School District uses an online bully reporting system called SafeSchools that students, teachers and parents can use to report bullying incidents and school safety threats. Individuals can access the reporting form through a link on our school website or they may go to plattecounty-mo.safeschoolsalert.com. After completing the reporting form and clicking the “submit” button, the report details are sent in a secure email to our school administrators and counselors. The SafeSchools reporting form can be accessed from the privacy of a home computer or other internet equipped device, providing a greater sense of privacy than other methods of reporting.

HAZING (Board Policy JFCG)

In order to promote a safe learning environment for all students, the Platte County R-3 School District prohibits all forms of hazing. For purposes of this policy, hazing is defined as any activity, on or off school grounds, that a reasonable person believes would negatively impact the mental or physical health or safety of a student or put the student in a ridiculous, humiliating, stressful or disconcerting position for the purposes of initiation, affiliation, admission, membership or maintenance of membership in any group, class, organization, club or athletic team including, but not limited to, a grade level, student organization or district-sponsored activity. Hazing may include those actions that subject a student to extreme mental stress including, but not limited to, sleep deprivation, physical confinement, forced conduct that could result in extreme embarrassment or criminal activity, or other stress-inducing activities. Hazing may also include, but is not limited to: acts of physical brutality; whipping; beating; branding; exposing to the elements; forcing inhalation or consumption of any food, liquor, drug, tobacco product, or other substance; or any other forced physical activity that could adversely affect the physical health or safety of an individual. Hazing can occur even when all students involved are willing participants.

Hazing does not occur when a student is required to audition or try out for an organization when the criteria are reasonable, approved by the district and legitimately related to the purpose of the organization. District staff, coaches, sponsors and volunteers will not permit, condone or tolerate any form of hazing or plan, direct, encourage, assist in, engage in or participate in any activity that involves hazing. District staff will report incidents of hazing to the building principal. The principal shall promptly investigate all complaints of hazing and administer appropriate discipline to all individuals who violate this policy. District staff who violate this policy may be disciplined or terminated. Students participating in or encouraging inappropriate conduct will be disciplined in accordance with the district's discipline code. Such discipline may include, but is not limited to, suspension or expulsion from school and removal from participation in activities. The district will report hazing incidents to law enforcement when required by law. Students who have been subjected to hazing are instructed to promptly report such incidents to a school official. The superintendent will provide for appropriate training designed to assist staff, coaches, sponsors and volunteers in identifying, preventing and responding to incidents of hazing. The district shall annually inform students, parents/guardians, district staff and volunteers that hazing is prohibited.

Entrance Age

- A child is eligible for admission to kindergarten if the child reaches the age of five (5) before the first day of August of the school year beginning in that calendar year.
- A child is eligible for admission to kindergarten/first grade if the child is a military dependent and has successfully completed an accredited prekindergarten program or has attended an accredited kindergarten program in another

state.

- A child who reaches the age of five (5) prior to the cut-off date is eligible for admission to the summer school session immediately preceding kindergarten.
- A child is eligible for admission to first grade if the child reaches the age of six (6) before the first day of August of the school year beginning in that calendar year.
- "Any child who completes the kindergarten year shall not be required to meet the age requirements of a district for entrance into grade one." This law does not specify the type of kindergarten program that must be completed prior to promotion to the first grade. Most school districts accept successful completion of kindergarten at any accredited public, private or parochial school as sufficient basis for promotion to the first grade. A child transferring from an unaccredited school, such as a home school, may be subject to additional evaluation to determine promotion.

Exceptions

- Pursuant to statutes [160.054](#) and [160.055](#), RSMo, the St. Louis and Kansas City School Districts may establish a later kindergarten/first grade entry date.
- A school may enroll a transfer student that has attended kindergarten or first grade in another state with a different entry age date on the theory of giving "full faith and credit" to the other states' entry age law.
- Parents seeking information regarding the above-referenced exceptions to kindergarten/first grade enrollment should contact the [school district](#) in which they intend to enroll their child.

Birth Certificates

Students who are entering kindergarten or first grade are encouraged to preregister in the spring prior to the fall semester in which they are to begin attendance. Students entering the schools in the district will be required to present a birth certificate or other acceptable proof of age if necessary to determine whether the student is eligible to attend school.

District-Sponsored Preschool, Daycare Centers and Nursery Schools

No child is permitted to enroll in or attend district-sponsored preschools, daycare centers or nursery schools until the district has satisfactory evidence demonstrating that the child has been immunized, that immunizations are in progress or that the student has an immunization exemption as permitted by law.

Upon request from a parent/guardian of a student enrolled in or attending district-sponsored preschools, daycare centers or nursery schools, the district will inform the parent/guardian whether any student enrolled or currently attending the facility in which the district-sponsored preschool, daycare center or nursery school is located has an immunization exemption on file. The district will only verify whether any student has an exemption on file. The district will not release any information that would identify a particular student with an exemption or a particular type of exemption.

The district will notify parents/guardians at the time of initial enrollment of their student in district-sponsored preschools, daycare centers or nursery schools that they may request notice from the district as to whether any students currently enrolled in or attending the facility have an immunization exemption on file with the district. For more information please review Board Policy JHCB.

Visitors

Due to space, and to preserve the capacity of our lunchroom, family members listed on the child’s enrollment paperwork can do so by signing up using the form on the building website. Seat limitations are established using capacity numbers and the form allows the building to plan proactively. All family members will have to use this form in order to have lunch with their child. Please limit visitors to no more than two, to allow for more families to participate.

Volunteer opportunities are available at school. Please reach out to your school’s PTA or look for communication from your child’s school for opportunities to support the school. See board policy: Policy KK: VISITORS TO DISTRICT PROPERTY/EVENTS.

All visitors will be asked to check in with the office upon arrival at school prior to entering the school. Hall Pass Visitor Management system has been installed in all of our schools to improve overall building safety/security and visitor management.

The Hall Pass Visitor Management system will:

- Conduct a screening on each visitor using the sex offender registry
- Will log in volunteers to track their hours
- Will be used to document late arriving students.

Whenever any non-student or non-district employee requests to enter any area of the building where children are accessible, essentially beyond the front office, they will be asked to produce a government issued ID:

- State driver’s license
- State issued ID
- Passport
- US Military ID
- Permanent resident card

The ID will be scanned and a badge will be given to visitors. This new process is a key to continuing to maintain and improve a safe and caring environment for our students and staff.

IMPORTANT DISTRICT INFORMATION

Celebrations and Birthdays

We believe it is important for the school to recognize our students on their birthday and other special days. However, for several reasons including increased food allergies, preservation of the instructional day, and student equality, students are not allowed to bring treats from home or have flowers/balloons or other items delivered to the classroom for birthdays, going-away parties, or other personal events. Each classroom teacher will recognize the student in a special way to celebrate his or her birthday. (See *Snacks* for more information about opportunities to share snacks in the classroom)

If a student receives a delivery at school, the student will be notified to come to the office to view the item. Parents will be

responsible for transporting the item home. Birthday party invitations may only be distributed if invitations are given to every student in the class.

Character Education Program

This year we are continuing our Character Education program district wide. All elementary schools in Platte County School District are Leader in Me © schools; our middle schools use a program called CharacterStrong; and the entire district promotes good character through the Pirates ROCK (Raising Outstanding Character Kids) program.. Our buildings work to associate connections to the 7 Habits, social-emotional learning competencies, and Pirates ROCK character traits. Students will be recognized in a variety of ways at the different buildings who model these habits, competencies, and traits.

7 Habits:

Be Proactive
Begin with the End in Mind
Put First Things First
Think Win-Win
Seek First to Understand; Then to be Understood
Synergize
Sharpen the Saw

Pirates ROCK Traits:

August	Self Confidence
September	Pride
October	Responsibility
November	Citizenship
December	Compassion
January	Individuality
February	Self Control
March	Integrity
April	Perseverance
May	Respect
June	Cooperation
July	Honesty

Crisis Plan

The Platte County R-3 School District has a comprehensive crisis plan that includes plans for fire, severe weather, earthquakes, lock down, hold in place, secured perimeter, evacuations, weapons, snipers, hostage situation, accident/death, bomb threats and biological attacks. The Crisis Plan is building specific and updated annually. Every staff member has a copy of the plan located in an easily accessible place. Parents who wish to read the crisis plan may request a copy from the school office.

Earthquake Drills

- Choose a safe place in every room--under a sturdy table or desk or against an inside wall where nothing can fall on you.
- Practice DROP, COVER, AND HOLD ON. Drop under a sturdy desk or table, hold onto the desk or table with one hand, and protect the back of the head with the other hand. If there's no table or desk nearby, kneel on the floor against an interior wall away from windows, bookcases, or tall furniture that could fall on you and protect the back of your head with one hand and your face with the other arm.

Emergency Drills

Emergency Drills are practiced throughout the school year for the safety of our students and staff.

Fire Alarms

Fire alarms are placed throughout the building for the safety of students and staff. Turning in a false alarm is a very serious matter, which disrupts the educational process and endangers students and firefighters. In such an event, disciplinary action by the school will be taken in addition to contacting proper civil authorities.

Fire Protections

- Students shall leave all articles behind at the sound of the fire alarm.
- All windows and doors should be closed and the lights turned off before the room is vacated.
- All students must walk rapidly and in single file. If you find your first exit choice blocked, students should reverse your line and inform the teacher immediately.
- All students should assemble at least 100 yards from the building.
- All students should become familiar with the location of the fire equipment.

Severe Weather Procedures

- The warning to proceed to the shelter area will be an announcement on the P.A. system or appropriate alarm.

- Students will leave all personal belongings behind.
- Students must walk rapidly, but quietly, in single file to designated shelter areas

Dress Code

The Board of Education expects student dress and grooming to be neat, clean and in good taste so that each student may share in promoting a positive, healthy and safe atmosphere within the school district.

Student dress and grooming will be the responsibility of the individual and parents/guardians, within the following guidelines:

1. Dress and grooming will be clean and in keeping with health, sanitary and safety requirements.
 - a. Clothing that causes students to have a potential of injury. i.e. – inappropriate footwear for physical education or clothing that causes difficulty walking.
 - b. Heavy or lengthy chains are not to be worn at any time
2. All students must wear shoes, boots, or other types of footwear.
 - a. Wheelies and house slippers are not permitted.
3. Dress and grooming will not disrupt the educational environment.
 - a. Clothing and accessories that refer to sexual connotations or products with alcohol, tobacco and drugs will not be permitted.
 - b. Clothing with printed slogans that are disruptive or detrimental to the educational process or working environment is not permitted.
 - c. Hats and Hoodies will be allowed. However, if hats become a distraction, teachers and administrators will have the right to have students remove them.
 - d. Clothing which exposes a bare midriff, excessive skin or back is not permitted.
 - e. Undergarments must be fully covered by clothing.
4. Class activities that present a concern for student safety may require the student to adjust hair and/or clothing during the class period in the interest of maintaining safety standards.
5. Additional dress guidelines may be imposed upon students participating in certain extracurricular activities.

When, in the judgment of administration, a student's appearance or mode of dress does not comply with the above criteria, the student may be required to make modifications. No employee or volunteer shall direct a student to remove an emblem, insignia or garment, including a religious emblem, insignia or garment, as long as it is worn in a manner that does not promote disruptive behavior.

Students may be asked to change clothes and/or a parent may be called to bring appropriate school attire.

Electronic Devices

Items such as cell phones, smart watches and electronic devices should not be seen, heard or used in the school building during instructional hours without permission. Failure to comply will result in graduated consequences that will include phone or electronic devices being confiscated from an administrator with a potential parent pick up. The phone or electronic device must immediately be relinquished (completely assembled) by the student when a violation has occurred. Failure to relinquish the phone or electronic device will be deemed refusal to obey instructions. The School and the Platte County School District are not responsible for recovery, reimbursement or replacement of lost, stolen, or damaged cell phones or electronic devices. No camera or video-capable electronic device may be used in locker rooms, restrooms, or any classroom at any time. Photo, video and/or audio recording without explicit written permission of subjects will result in disciplinary action.

Evening Events

If a child has been absent from school for a full day due to an illness, vacation, or required absence based on the school's discretion, they are not permitted to attend afternoon parties, evening concerts, or other school sanctioned events.

Field Trips

Field trips are set up by the district in an effort to provide co-curricular experiences that cannot be provided within the classroom. . Students are required to have a permission slip signed by a parent. Any student not having a permission slip signed by a parent/guardian and on file at school is not permitted to go on the field trip.

Fines and Charges

All fines and charges are expected to be paid. Lunch charges are discouraged and will be limited. No charges will be accepted during the last four weeks of school. Any student needing assistance with lunch charges is encouraged to speak with a counselor or school social worker.

Forms

Keeping forms up-to-date at school is critical. If you have any changes (telephone number, address, work numbers, emergency contacts, transportation changes, etc.), please report the change to the school office.

Grading

In the Platte County R-3 School District, we believe student achievement occurs through clearly defined standards and authentic learning opportunities. We strive to provide accurate, meaningful, and timely feedback to both students and parents throughout the learning process. The elementary schools utilize *Standards Based Grading* practices. The goal of this practice is to honor the district's Principles of Learning, and communicate how close a student is to mastering the standard as defined by the district curriculum. For additional information on grading practices and to view the *Parent Guide to the Report Card*, please visit the district website.

Make Up Work

The most authentic learning environment is the classroom, but should make-up work be needed for a student to maintain progress, a teacher will send the work home with the child when they return to school. If a parent would like to have the work prior to the student's return to school, they can call the office and make a request. Please allow for 24 hours for a teacher to provide the work. If items are needed from school for the work to be completed, a parent can pick it up for the office the following day after the request.

Prohibiting Student Access and/or Pick-up

You must inform the school office if there are persons that cannot legally visit or pick up a child. If that person has been a legal guardian of the student in the past (i.e. parent), we must have a copy of the most current court order clearly stating that this person may not visit or pick up a child before denying a parent or guardian rights to pick up that student.

Loitering

Students are not to loiter about the building or on school property before or after school hours. Any student in a building, before or after school hours, must be under the supervision of a teacher or faculty member.

Lost and Found

Articles of clothing and other personal items found in and around school are to be turned into the office. Please write your name on your personal property for identification purposes. The district and school cannot assume responsibility for loss or damage to personal items. That responsibility remains with the student and parent/guardian. All unclaimed items will be donated at the end of first semester and at the end of each quarter.

Lunch/Breakfast/Cafeteria/Snacks

The Platte County School District has established Eat Smart Guidelines consistent with the Missouri Eat Smart nutrition guidelines. Platte County School District Wellness Eat Smart Guidelines address breakfast, lunch and after school snack programs; à la carte food items; vending machines; school stores; fundraisers; and environmental factors. Parents are encouraged to become familiar with these guidelines and check with school personnel prior to purchasing birthday treats or snacks for distribution to students other than their own child. Please refer to Board Policy ADF for more information.

Lunch is closed campus and students may not have leave during the lunch period. Procedures are in place at each building to notify students and parents when balances are low or have a negative balance. Free and reduced lunch applications are available in the school office for families who meet financial guidelines.

2023-24 Elementary Meal Prices

Milk	\$.55
Breakfast	\$1.95
Lunch	\$2.70

2023-24 Adult Meal Prices

Breakfast	\$2.05
Lunch	\$3.85

All checks for breakfast, lunch, and/or drinks should be made to "Platte County R-3 School District." Any cash sent for lunch money should be sent in a sealed envelope with the student's name on it. Lunch money must be turned in at the beginning of the day and will not be accepted when students are going through the lunch line. All prices are subject to change. Student's lunch balance can be accessed on the Parent Portal web-site and/or printouts may be sent home.

Students are allowed to charge a lunch or drink if they have forgotten their money. When student balances approach \$5 or less, parents will be contacted via email and/or phone call. Communication to students will also be made.

- A student with money in hand will not be denied a meal even if the student has past due charges.
- Students will not be singled out, shamed or punished by the district for the failure of their parents/guardians to pay for or provide meals and the district will not hold student records in violation of law.

- A student may not accumulate more than six unpaid charges for complete meals.
- A student who has accumulated six unpaid charges for complete meals and is still unable to pay for meals will be provided a substitute meal that meets the district's nutrition guidelines.
- Substitute meals provided to the student will be charged to the student's meal account.
- Unpaid charges will be considered debt. The District will make reasonable efforts to collect delinquent debt, including turning in unpaid meal charges to a collection agency.

Students will be reminded when their account balance gets low so that they can bring more money the next day to keep the account active. Free and reduced lunch applications are available in the school office for families who meet financial guidelines.

To ensure that parents/guardians have ample opportunity to resolve situations involving unpaid meal charges, the district will:

1. Provide timely notification to parents/guardians when account balances run low (when applicable) and each time their student charges a meal. Email communication will be sent out weekly to low or negative balance accounts.
2. Invoice parents/guardians for unpaid meal charges during the district's monthly billing cycle, in addition to providing notification of outstanding balances by other means at the discretion of the superintendent or assistant superintendent.
3. Work with parents/guardians to create a payment plan that allows for the payment of accumulated balances over time.

Unpaid meal charges will be considered a delinquent debt 90 days after notice that charges are due when no payment or payment plan agreement has been made. Unpaid charges will be considered delinquent as long as the district determines the debt is collectible and efforts to collect the debt are ongoing. The district will make reasonable efforts to collect delinquent debt, including turning over unpaid meal charge balances to a collection agency when the superintendent or designee determines such action is in the best interest of the district. The district's Nonprofit School Food Services Account (NSFSA) funds may be used to cover the costs of reasonable efforts to collect delinquent debt, including costs associated with using a collection agency.

Please refer to Board Policy EF-AP(1) for information regarding the district's process and interventions for collecting outstanding meal charge balances.

Free and Reduced Breakfast/Lunch

Parents who feel they are eligible for either free or reduced breakfasts/lunches for their child should obtain an application from the school. The application will be accepted throughout the school year. If your financial situation is altered at any time, parents are encouraged to apply for this at any time during the school year. We are happy to answer any questions you have upon request. Please refer to Policy EFB for more information.

Student Snacks

Students may bring in a daily snack if allowed by the classroom teacher. The snack needs to follow our district's protocol for peanut products. All classrooms will be designated as peanut/nut free zones – no peanut/nut products will be permitted in the classrooms. If you would like to donate to your child's classroom, please make arrangements through the classroom teacher. All donations need to be individually packaged snacks. Student snacks are different from Birthday, or Special Day treats. (See the Birthday Treat guidelines above.)

Missouri Course Access and Virtual School Program

In 2018, Senate Bill 603 was passed establishing the Missouri Course Access and Virtual School Program (MOCAP). MOCAP is intended to provide access to online courses for all Missouri K-12 students needing flexible academic programming through online coursework.

Online instruction can be an effective education option for some students and Platte County School District will continue to offer a variety of online courses to meet student needs. As an alternative option, however, eligible students may request to enroll in online courses offered through MOCAP during the regular enrollment window. Best educational fit will be considered when requesting to enroll in a learning environment outside the traditional face-to-face setting.

Please contact Dr. Aaron Duff if you have any questions.

Outdoor Recess

Recess provides a critical opportunity for students to engage in physical movement, and to practice intrapersonal skills. Recess time is spent outdoors unless weather prevents safe play for the classes. Winter sometimes causes modifications in recess play, but we feel it is still important the children go outside when weather permits. Students will stay in for recess. There will be no outdoor recess when the "feels like " temperature is 20 degrees or below or is above 95 degrees Fahrenheit.

Teachers who supervise playground activities monitor weather conditions and prioritize outdoor play when it is safe to do so. a. The outdoor recess will be at the discretion of the staff. We ask for your support in this matter by doing the following:

1. Reminding your child to wear their gloves, hat, etc. when coming to school in the colder months.

2. If your child has an extenuating health circumstance, please contact that school health room to secure the proper documentation.

Playground Rules

The playground is an extension of the classroom Teachers establish behavior expectations for the playground to ensure safety for all students. Students will be expected to follow building and classroom behavior expectations while engaged in play during recess. Any and all complaints by students about other students on the playground are to be directed to the teacher(s) on supervision duty.

Parent Teacher Conferences

Parent/Teacher conferences will be held twice during the year. Specific information as to the date and time can be found on the school calendar.

Teachers are also available during their planning time or before and after school. When a parent desires to confer with any teacher, he/she should call the school office to arrange for an appointment. It is reasonable for it to take up to 24 hours during the work week for a response, as teachers have just a few brief times during the day in which they are not engaged in direct instruction.

Parent-Teacher Associations

Our parent-teacher associations make many contributions to our schools. All parents are strongly encouraged to join and participate in these organizations. Meetings are regularly scheduled and will be published on school websites and in school newsletters.

Personal Property

Students are reminded that personal property not needed for schoolwork should be left at home. This includes electronic or other games, magazines, headphones, etc. Such items brought may be taken by any teacher and turned into the office. The school district and school will not be responsible for personal items lost or stolen.

Bicycles/Skateboards

When students ride bicycles to school, immediately upon arrival the bicycles are to be placed in the bicycle rack. Students are not to remove bicycles from the rack until they are ready to leave school in the afternoon. The school is not responsible for any lost or damaged bicycles. All bicycles should be locked with a padlock when they are placed in the racks. Skateboards are to only be ridden to and from school and are to be placed in the student's locker until the end of the school day.

Pets at School

Due to liability issues and allergic reactions, students are not permitted to bring pets to school. Pets are not allowed after school or evening events. Refer to Board Policy ECG for exceptions to this.

Progress Reports

The purpose of progress reports is to communicate progress toward mastery of key standards. Progress reports at the elementary level come in the form of Leadership Notebooks. Leadership Notebooks will be sent home periodically throughout the year. Emails, phone messages and other forms of communication will be utilized to properly inform parents when Leadership notebooks and grade cards are sent home. Students will be asked to share the data included in their data notebook. This experience is designed to be a collaborative event between students and their families.

Release of Student Names

Occasionally, student names are released to the newspaper/yearbook for public relations purposes. If parents/legal guardians do not want their child's/children's name(s) given to the media, parents/legal guardians should include this information on their child's enrollment paperwork.

School Closing Information

While the decision to close school or dismiss early will always be made as early as possible, the school district **strongly** urges you to make personal arrangements in advance for your child. Please prepare for any emergency closings that might occur before or after the school day begins. Your child's safety is paramount, and we encourage you to give this some thought and converse with your child concerning this important matter.

The Platte County R-3 School District uses an expanded network service, created by a group of area broadcasters. They will disburse the information throughout the Kansas City area on radio and television.

In addition, school closings will be recorded on the school district's message system by calling **816-858-2752**.

School closing or other important information will also be issued through a service called **School Messenger**. This service will automatically dial all current phone numbers (land and cell phone) provided to your child's school, by you, as contact information regarding your child. Please make sure this information is current. Parents/guardians who have opted in to receive text messages will also receive text messages via School Messenger about school closings and early dismissals. To opt in, simply text "yes" to 67587 from the phone number you have provided to your child's school.

School closing information is posted on the homepage of the district website as soon as a decision is made, as well as via the district's social media.

School Counselors

The Platte County School District school counseling program provides services to students by addressing and advocating for their academic, social, emotional, and post-secondary planning needs.

The school counselor's duties include the following:

- Individual and small group counseling.
- Consultation with building teachers.
- Classroom visits teaching various lessons tied to large group counseling.
- Parent assistance.
- Crisis team.
- Team member for Special Services.
- Liaison from the school to the community.

Students and parents wishing to see a school counselor can make an appointment via email or the contact link on the school counseling website. Parents needing to contact the counselor should contact the building counselor to make an appointment.

Confidentiality Statement

An integral part of the counseling program is to provide responsive services to students. The ethical guidelines of the American School Counselor Association emphasize the importance of confidentiality between school counselors and students at the same time recognizing the rights of parents. Counseling records do not become a part of the student's permanent record except as required by school policy. We may indicate that a student was seen by the School Counselor; however, the topics discussed are not included unless required by the school board policy. The requirements of the Family Education Rights and Privacy Act (FERPA) are enforced—information will not be released to anyone outside our school without your written permission. The Counselor may talk with the classroom teacher about how he/she can help your child in the classroom; however, specific information will not be shared.

School Social Workers

School social workers assist children who are having difficulties academically, socially or emotionally. Social workers serve a critical role in providing the vital link between the home, school and community.

School Social Workers facilitate referrals to community resources, support groups, and crisis intervention. They may participate in parent-teacher conferences and team meetings, and provide parent education and training and help parents use school/community resources more effectively.

School Supplies

A list of school supplies is available from the school office if you did not receive one at the close of last year or at time of enrollment. A supply list is also available on the PCR-3 School District website: www.plattecountyschooldistrict.com.

Student Absences and Notifying the School

Regular and punctual patterns of attendance will be expected of each student enrolled in the school district. Students should strive to maintain a good attendance record, because there is a direct relationship between school attendance and grades, citizenship and success in school.

- Please call first thing in the morning if a student is not going to be at school.
- If your student needs to leave early, please call in as early as possible to inform us. Remind your student to pick up a pass in the front office. Upon returning, students need to provide a doctor's note/excuse, etc. to the Welcome Center or front office.
- If you are having someone, other than a parent or guardian, pick up your student, please call the office to relay who has permission to pick up your student.

It is recognized that an absence from school may be necessary under certain conditions, however, every effort should be made by students, parents/guardians, teachers and administrators to keep absences and tardiness to a minimum.

Parents and students are strongly advised to limit absences to cases of emergencies, illness, doctor and dental appointments, or a death in the family. Examples of unverified absences are truancy, employment during school hours, staying home to work, shopping, and babysitting. In the event of an excused absence, the teacher will allow the student to make up all work missed during the absence. The make-up work is to be completed, in a reasonable amount of time, at the teacher's discretion.

Parents/Guardians are requested to call the school before 10:00 a.m. when their child is going to be absent. Students who are absent from school without the knowledge and consent of the parent/guardian and the administration will be considered unverified or truant. A student who is absent from school will not be allowed to attend an extracurricular activity that night.

An unverified Absence/Truancy is an absence from school without the knowledge and/or consent of parents/guardians and the administration. A student is also considered truant if the student leaves school without the consent of the principal or accumulates excessive unjustifiable absences, even with parental consent. Truancy is a type of unverified absence. In addition, the school may contact the Juvenile Office or Division of Family Services in cases where the District has a reasonable suspicion that a student's lack of attendance constitutes educational neglect on the part of the parents/guardians or that parents/guardians are in violation of the compulsory attendance law. No such action will be taken unless other strategies and interventions have been implemented and proven ineffective.

Excusing Students During School Hours

Any student being dismissed during regular school hours must be checked out of school through the office rather than a parent going directly to the classroom. The adult must sign the student out and may be asked to show proper ID before the school releases the student into their custody. Please make sure to list all persons who have your permission to take your child on the enrollment sheets. Teachers will not excuse a student from the classroom to leave the building unless notified by the office. If a child leaves without checking through the office, disciplinary action will follow as it is in violation of our school policy.

In the interest of student safety, we will ask for a picture ID until we get to know you. Please understand and be patient with us.

Student Safety

Unless told otherwise by a parent, we assume that students are not to leave school with anyone else, whether it is a relative, neighbor, friend, or stranger. We will not allow students to leave with someone other than a parent, unless expressly directed to do so by a parent. Student safety is our priority. Our schools are equipped with a security system, which includes cameras and monitors both inside and outside. All exterior doors are locked during the school day. When arriving at the school, please ring the bell and report directly to the office to sign in. These measures are taken in an attempt to ensure the safety of students and staff.

Telephone Calls and Messages to Students

Students are permitted to use the school telephone if it becomes absolutely necessary to call parents. Messages to students are discouraged unless it is an emergency or there is a change in the child's transportation plan. All messages will be delivered to the teacher at the end of the school day. It is important for parents and students to have a plan in case of school closing early due to inclement weather.

Textbooks and Library Books

Textbooks are the property of the school district and are loaned to the students throughout the course of a year. Any student, who loses or damages a textbook beyond a simple repair, will be expected to pay for the replacement of the book if it cannot be used. Payment will need to be received prior to another book being issued to the student. Student privileges may be denied until payment is received. Students are responsible for all library books checked out to them. Charges for lost or damaged books will be a combination of replacement costs and shipping and handling fees.

Transportation Changes

Transporting several hundred children to and from school each day is a big challenge that the school office and transportation department do not take lightly. It is imperative the school office has correct transportation information on file. Therefore, whenever changes occur (i.e. child care provider changes, home address changes, telephone numbers, etc.) the school office is to be notified immediately. We also highly encourage a child to have one set of transportation plans established. When transportation changes occur frequently, the best efforts of all concerned can be compromised and your child(ren) can feel concerned about the appropriate plan to follow. Please make every effort to follow an established plan and alter that plan as infrequently as possible.

In our need to operate as efficiently as possible, our buses run very near capacity. We try very hard to accommodate transportation changes. Occasionally parents request that a number of children (sometimes as many as 4 or more) ride a particular bus to a birthday party, scout meetings, etc. When such a request is made, the extra students riding can cause a bus to

be over capacity. We ask that you help us by carpooling whenever possible in the event that you need a group of students to change buses. Approval will be made by the transportation department.

In the event of transportation changes, please send a signed note. If you must call the office with a transportation change, please do so at least 3 hours prior to the end of the school day. After that time due to school dismissing shortly, we cannot guarantee that the change will be allowed.

Use of School Building

District patrons may use the building(s). Patrons wishing to use the building(s) must utilize the facility usage procedures found on the District's website. There are various charges for use of the building, depending on the usage. It should be noted that all PCR-3 events take priority over community use of a district building.

Virtual Learning

Eligible Students may enroll in virtual courses offered in virtual courses approved by the district's Board of Education. In addition, eligible Students may enroll in virtual courses offered through the Missouri Course Access Program (MOCAP). Please refer to Board Policy IGCE-1 or visit the district website for more information.

IMPORTANT DISTRICT STUDENT HEALTH INFORMATION

Health Services makes a special effort to help students establish good health habits and stay healthy. Student health services will include the following:

- Immunization compliance as mandated by the Missouri Department of Health and Senior Services
- Health appraisals (screenings) as required by the Missouri Department of Health and Senior Services which will include hearing, and vision.
- Emergency first aid treatment for accidents or illness occurring during the school day
- Maintenance of student health records

Students should not come to school when they are ill, have an elevated temperature or a suspected contagious condition such as vomiting or diarrhea. It is for their protection as well as for others in the classroom. If your child should become ill or injured at school, you will be notified promptly and be asked to pick up your child. Children will be sent home if their temperature is greater than 100 degrees and must be fever free for 24 hours before returning to school - without using fever reducing medications containing ibuprofen or acetaminophen. If your child is sent home with vomiting or diarrhea, they must be symptom free for 24 hours before returning to school. If you are not sure about sending your child to school, contact the health room staff in your child's school building for assistance. For other conditions such as pink eye, the student may return to school 24 hours after treatment has begun. The school system follows guidelines suggested by the Centers for Disease Control. You can access their website for additional information at www.cdc.gov.

If a student is injured or experiences symptoms of illness while at school, he/she should request a health room pass from a staff member, if practical, or report directly to the health room in the case of an emergency. The health room staff will provide an assessment of the student's situation and may:

- Provide necessary first aid or assistance
- Contact a parent to arrange transportation home or to a health care facility for the student
- Summon emergency medical assistance
- Allow the student to rest for a time in the health room
- Send the student back to his/her normal school activities

Head Lice

In keeping with the Platte County R-3 School District's policy of avoiding the unnecessary exclusion of students from school, the district will not exclude otherwise healthy students from school due to nit infestations. Students with head lice infestations will be excluded from school only to the minimum extent necessary for treatment. Please refer to Board Policy JHC-AP2 for more information regarding head lice.

Health Information Privacy

As you are aware, there are times when it is appropriate for the school nurse to share information regarding the health of your child with other members of the educational team. This information may be as simple as the results of the hearing and vision screenings, or something more complex like a health condition such as diabetes, epilepsy, or medications your child needs.

To ensure your child's right to privacy, this information is shared only on a need-to-know basis. By signing this handbook you are acknowledging this information and giving your permission to the Platte County R-3 School District to share health information among the educational and counseling staff on a need-to-know basis.

Immunization-Missouri Law

Missouri law requires all school children in the state to be adequately immunized against diphtheria, tetanus, pertussis (DTP), polio, measles, mumps, rubella (MMR), hepatitis B, varicella (chicken pox), Tdap (tetanus, diphtheria, and pertussis), and MCV (Meningococcal). Students in the Platte County R-3 School District are in compliance with the law if:

- All immunizations are complete and the dates are provided to the school.
- The immunization process has started and is progressing according to the schedule recommended by the Missouri Department of Health and Senior Services.
- An exception from immunization has been arranged according to provisions of the law.

Parents are responsible for providing dates (day, month, and year) of all immunizations previously received when a student is enrolled. Exclusion from school, as required by the law, will occur if the student is not adequately immunized, or properly exempt. For more information on Immunizations, see Policy JHCB. A schedule of required immunizations and location can be obtained from the district's website at www.plattecountyschooldistrict.com.

Medication Guidelines

Medications can be given during school hours when necessary but we encourage dosage schedules that allow medications to be taken before and after school. Please bring only the amount of medication needed. Contact the health room staff in your student's building with any questions. Listed below are the medication guidelines for the Platte County R-3 School District.

- Written orders from a physician licensed to prescribe and written permission from the parent/guardian must be provided for any prescription medication to be given at school. A Medication Administration Form is available at www.plattecountyschooldistrict.com. The information will include the name of the student, medication, dosage, route of administration, and time medication is to be given. The medication label attached by the pharmacist/physician will be accepted as the doctor's order.
- If a medication is to be taken for a prolonged period of time, please ask your pharmacist to prepare a prescription bottle to be left at school. We are NOT permitted, by law, to administer any medications sent to school in unlabeled containers.
- All medications will be kept in the health room.
- First doses of medications will not be administered at school.
- Medication ordered to be given twice or three times a day should be given at home, not at school. If the medication is ordered for a specific time, or four times or more per day, it may be appropriate for the medication to be given at school.

- All non-prescription, over the counter medication (including cough drops) must be in the original, unopened container marked with the student's name and accompanied by a Medication Administration form to administer. Opened bottles or opened packages of medications will not be accepted or administered. Medications sent to school in baggies, envelopes or punch out cards will not be accepted or administered and will be held in the health room until a parent/guardian can pick up the medication. Only the instructions on the container will be followed unless the physician provides alternate instructions. Only the smallest dose will be given to determine effectiveness. For children 12 years or younger, Pediatric or child dosing will be followed - no adult dosage will be given without a

physician's order. If a question would arise, the school nurse will have the right to refuse administration of the medication until further clarification is received and documented from the physician.

- Homeopathic medicines will not be given at school. Medication must be approved by the FDA to be administered by the nurse.
- It is the student's responsibility to come to the health room for assistance in taking medications.
- Students may not carry any type of medication with them at school or store medication in a locker unless special written medical authorization is on file in the health room.
- Self-administration of medication – Grades K-3 - may not self-administer medication. In the case of life-threatening allergies, an epi-pen may be self-carried with the required medication forms on file. Please contact the health room staff in your child's building for assistance.
- Self-administration of medication – Grades 4-12 – may carry certain medications during school hours with the required medication forms on file. Please contact the health room staff in your student's building for assistance.

Emergency Medications

All student-occupied buildings in this district are equipped with prefilled epinephrine auto syringes. The school nurse or another employee trained and supervised by the school nurse may administer this medication when they believe, based on training, that a student is having a life-threatening anaphylactic reaction. Benadryl is also available for administration in the event of an allergic reaction and may be given if appropriate.

Epinephrine will only be administered in accordance with written protocols provided by an authorized prescriber. The health services staff will maintain a list of students who cannot, according to their parents/guardians, receive epinephrine. A current copy of the list will be kept with the devices at all times.

All buildings in the district are equipped with albuterol in either a metered dose inhaler or nebulizer form. The school nurse or another employee trained and supervised by the school nurse may administer this medication when they believe, based on training, that a student is having a life-threatening airway obstruction due to asthma.

Albuterol will only be administered in accordance with written protocols provided by an authorized prescriber. The health services staff will maintain a list of students who cannot, according to their parents/guardians, receive albuterol. A current copy of the list will be kept with the devices at all times.

All buildings in the district are equipped with Narcan nasal spray. The school nurse or another employee trained and supervised by the school nurse may administer this medication when they believe, based on training, that a student is having a life-threatening opioid overdose.

Narcan will only be administered in accordance with written protocols provided by an authorized prescriber. The health services staff will maintain a list of students who cannot, according to their parents/guardians, receive Narcan. A current copy of the list will be kept with the devices at all times.

Medical Marijuana and Cannabidiol (CBD) Oil

The district does not permit the possession or administration of marijuana or marijuana-infused products for medicinal purposes on district property or at district events since these products are prohibited under federal law.

Parents/guardians with a valid hemp extract registration card may possess CBD oil on district property for the purpose of administering it to their students who are less than 18 years old for the treatment of epilepsy. Asbestos Control

In 1986 The United States Congress enacted the **Asbestos Hazard Emergency Response Act (AHERA)** to deal with asbestos in public schools. The initial inspection of buildings in the Platte County R-3 School District was completed in 1988 by accredited asbestos inspectors. From the results of this inspection, an Asbestos Management Plan was written for each building owned by Platte County R-3 School District. A copy of the Asbestos Management Plan is available at the Central Office, 998 Platte Falls Rd in Platte City. Dr. Devin Doll, Executive Director of Operations, is the designated Asbestos Program Manager. Inquiries should be addressed to dolld@platteco.k12.mo.us.

AHERA regulations also require the re-inspection of the buildings every three years. Re-inspections were accomplished during the summers of 1991, 1994, 1997, 2000, 2003, 2006, 2009, 2012, 2015, 2018, 2021, and 2023. In addition, existing conditions are monitored every six months.

Platte County R-3 has addressed asbestos by removing it from the areas considered to be the most likely to be disturbed. Please be assured that the District will continue to take whatever steps necessary to ensure a safe environment for its students, staff and visitors.

Assessment Program

The Board of Education of the Platte County R-3 School District knows the importance of measuring the progress of students in the district. Therefore, the district has adopted an "Assessment Program" policy (IL) to cover the various components of assessing students. The policy covers student achievement, student counseling, instructional change, and school and district evaluation. As a public school district in the state of Missouri, all mandated state tests (Missouri Assessment Program) are administered in the appropriate grade levels. As "Every Student Succeeds Act" mandated testing phases in, the district will implement those elements of assessment into the program. District and building results on the MAP are published annually in the "School Accountability Report Card". The full "Assessment Program" Policy IL is available to the public in each school building in the district as well as the Administrative Offices located in Platte City.

A student cannot be opted out from statewide assessments under Missouri law or under Policy IL.

Notice of Rights under Family Educational Rights & Privacy Act (FERPA) for Elementary and Secondary Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Parents or eligible students who wish to ask the school to amend a record should write the school principal clearly identifying the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer or contractor outside of the school who performs an institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request.]

See the list below of the disclosures that elementary and secondary schools may make without consent.

Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the school to record the disclosure. (§99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. These rights transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

The Platte County R-3 School District has developed and adopted policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. Platte County RIII School District will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. Platte County RIII School District will also directly notify, such as through U.S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey. Platte County RIII School District will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or

surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this requirement:

1. Collection, disclosure, or use of personal information for marketing, sales or other distribution;
2. Administration of any protected information survey not funded in whole or in part by ED; and

Public Concerns and Complaints (Board Policy KL)

The Platte County R-3 School District is interested in resolving concerns and hearing complaints from the public regarding district programs and services so that they may be improved and better meet the needs of the students and the community.

The district encourages parents/guardians, students and other members of the public to first discuss concerns with the appropriate district staff prior to bringing the issue to the Board so that the issue may be thoroughly investigated and addressed in a timely fashion. The Board will not act on an issue without input from the appropriate district staff and may require a parent/guardian, patron or student to meet with or discuss an issue with district staff prior to making a decision in the matter.

The Board strictly prohibits discrimination or retaliation against any person for bringing a concern to the attention of the district or participating in the complaint process. This prohibition extends to relatives and others associated with the person who brought the concern or complaint. The Board directs all district employees to cooperate in investigations of complaints.

Complaints regarding district compliance with nondiscrimination laws will be processed according to policy AC. Employee grievances will be processed in accordance with the established employee grievance procedure or as otherwise required by law. Other grievances or complaints for which there is a specific policy or procedure will be addressed pursuant to that policy or procedure.

All district employees are expected to answer questions, receive input and professionally address concerns and complaints of parents/guardians, students and other members of the public. If an employee is unable to answer a question or resolve an issue, the employee must direct the person or the question to the appropriate district employee.

Federal Programs

In addition to general concerns and complaints, the Board is interested in resolving concerns regarding federal programs including, but not limited to, allegations that the district has violated a federal statute or regulation that applies to particular federal programs administered by the district or the Missouri Department of Elementary and Secondary Education (DESE) in accordance with Title I, Parts A, B, C, D; Title II; Title III, Part A.2; Title IV, Part A; Title VI; and Title VII, Part C of the No Child Left Behind Act.

The superintendent or designee is authorized to contact the district's private attorney for assistance in determining whether a violation has occurred. The superintendent or designee is authorized to immediately make changes to bring the district into compliance with federal law if the investigation determines that the law has been violated.

Notice

The district will notify all parents/guardians of the process for filing a complaint with the district, including the process outlined in this policy. In addition, the district will provide all parents/guardians a copy of DESE's No Child Left Behind Act of 2001 Complaint Procedures. If a person files a complaint regarding one of the listed federal programs, the person will be provided another copy of DESE's No Child Left Behind Act of 2001 Complaint Procedures if the issue is not resolved at the district level.

Process for Resolving a Concern or Complaint

The following steps are to be followed by parents/guardians, students or the public when concerns or complaints arise regarding the operation of the school district that cannot be addressed through other established procedures.

1. Concerns or complaints should first be addressed to the teacher or employee directly involved.
2. Unsettled matters from (1) above or concerns or complaints regarding individual schools should be presented in writing to the principal of the school. If the complaint is regarding a federal program listed above, the complaint must specify the federal law or regulation alleged to have been violated and the facts supporting the allegation. The principal will provide a written response to the individual raising the concern within five business days of receiving the complaint or concern unless additional time is necessary to investigate or extenuating circumstances exist.
3. Unsettled matters from (2) above or concerns or complaints regarding the school district in general should be presented to the superintendent or designee in writing. The superintendent or designee will provide a written response to the individual voicing the concern within five business days of receiving the concern or complaint, unless additional time is necessary to investigate or extenuating circumstances exist.
4. If the matter cannot be settled satisfactorily by the superintendent or designee, a member of the public may request that the issue be put on the Board agenda, using the process outlined in Board policy. In addition, written comments submitted to the superintendent or the secretary of the Board that are directed to the Board will be provided to the entire Board.
5. For most complaints, the Board's decision is final. However, if the complaint involves one of the federal programs listed above, the individual may appeal the issue to DESE.

Documentation and Release of Information

The district will maintain a copy of the complaint and documentation of any written resolution, when applicable, in accordance with law. If the complaint involves a federal program listed above, the superintendent or designee will complete a written

summary of the investigation and, if a violation has occurred, a description as to how the matter was resolved. The written summary must be completed within 45 calendar days of the complaint being filed with DESE if the complaint is first filed with DESE.

Records will be released upon request when required by law. In situations where a violation of law has been alleged or determined or documents include legal advice or work product, the superintendent or designee will have the district's attorney review the documents before they are released to DESE, the person complaining or any other person.

Staff/Student Relations (Parent/Guardian Notice of Electronic Communications with Students)
Board Policy GBH and Procedure GBH-AF

Staff members of Platte County R-3 School District are encouraged to communicate with students for educational purposes using a variety of effective methods, including electronic communication. When communicating electronically with students, staff members are required to use district-provided communication devices, accounts, webpages and social networking sites, when available.

Some staff members are given permission to communicate with students on a limited basis using the staff member's personal telephone numbers, addresses, web pages or accounts (including, but not limited to, accounts used for texting) for the purpose of organizing or facilitating a district-sponsored class or activity (for example, text messaging students participating on an athletic team or on an overnight field trip). Your student is currently participating in such an activity.

To facilitate these authorized communications, your student will be asked to provide his or her contact information to staff members to use to communicate with your student. This information includes, but is not limited to, your student's mobile phone number and email address(es). The district's policies, regulations, procedures and expectations regarding in-person communications at school and during the school day apply to electronic communications for educational purposes, regardless of when those communications occur. Staff communications must be professional, and student communications must be appropriate.

If you are not in agreement with this process, or if you would like staff members to use contact information other than what may be provided by your student, please contact the principal of your student's school.

Senate Bill 319 (Reading Initiative)

Senate Bill 319 was signed into Missouri law in the summer of 2001. The law requires the assessment of reading skills of all third graders in the state during the last quarter of school. If a third grade student's reading level is found to be more than one year below their grade placement, remediation is required (summer school, outside of school day tutoring the following school year). If at the end of the student's 4th grade year they remain more than a year below their grade placement in reading, they will be retained in 4th grade. Additional provisions of the law require students new to the district after 3rd grade, who do not have evidence of reading within one year of their current grade placement (grades 4- to be tested to determine their reading level. They, like 3rd grade students, will be offered remediation through summer school and/or outside the school day tutoring during the following school year for students advancing into grades 5 & 6.

*Exceptions include students with Special Education IEPs, students with a 504 Plan in the area of reading and students with Limited English Proficiency (School Board Policy IL-AP).

Student Insurance - Board Policy JHA

The Board of Education recommends that all students have accident insurance. Although arranging for such insurance is the responsibility of the student and parents/guardians, the Board may name an insurance carrier each year to offer group rates. Participation in the group plan is optional. Parents/Guardians and students will deal directly with the insurance carrier. Students participating in interscholastic athletics and certain other activities governed by the Missouri State High School Activities Association (MSHSAA) are required to have accident insurance coverage before being allowed to practice or compete for a school team. A student will not be allowed to participate in these activities, including practices, until proof of insurance coverage is received in the principal's office.

The district will provide parents/guardians enrolling students in the district information about the state children's health insurance program, MO HealthNet for Kids (MHK). A parent/guardian who, when completing an application for free and reduced-price meals, indicates that a child does not have health insurance will be notified by the district that the MHK program is available, if household income is within eligibility standard.

Student Records- Parent and Eligible Student Access

All parents will have the right to inspect their child's education records as allowed by law. As used in this policy, a "parent" includes a biological or adoptive parent, a guardian or an individual acting as a parent in the absence of a natural parent or

guardian. The district will extend the same rights to either parent, regardless of divorce, custody or visitation rights, unless the district is provided with evidence that the parent's rights to inspect records have been legally revoked. The rights of the parent transfer to the student once the student turns 18, or attends an institution of postsecondary education, in accordance with law.

If a parent or eligible student believes the education records related to the student contain information that is inaccurate, misleading or in violation of the student's privacy, he or she may ask the district to amend the record by following the appeals procedures created by the superintendent or designee.

The district will annually notify parents and eligible students of their rights in accordance with law.

Parents/legal guardians, who wish to view their child's records, will need to call the school office to set up an appointment. The information within the student records may not be removed from the school office and parents/legal guardians must sign a required form to see the records. A school representative will be in attendance while the records are being reviewed. As used in this policy, a "parent" includes a biological or adoptive parent, a guardian or an individual acting as a parent in the absence of a natural parent or guardian. The district will extend the same rights to either parent, regardless of divorce, custody or visitation rights, unless the district is provided with evidence that the parent's rights to inspect records have been legally revoked. More information pertaining to student records can be found under School Board Policy JO.

Suicide Awareness and Prevention

The Platte County School District has a program that attempts to prevent suicide attempts, increase knowledge about suicide and depression, develop desirable attitudes toward preventing suicide and depression, and increase help-seeking behavior among youth. Students have an opportunity to opt out of this program with parent consent. See Board Policy JHDF for additional information regarding suicide awareness and prevention.

Teaching About Human Sexuality

The Board of Education recognizes that parents/guardians are the primary source of sexuality education for their children. The Board also recognizes that effective sexuality education, taught in concert with parents/guardians, helps students avoid risks to their health and academic success and prepares them to make informed decisions as adults. Therefore, pursuant to the requirements of state law, any course materials and instruction relating to human sexuality and sexually transmitted diseases shall be medically and factually accurate and shall:

1. Present abstinence from sexual activity as the preferred choice of behavior in relation to all sexual activity for unmarried students because it is the only method that is 100 percent effective in preventing pregnancy, sexually transmitted diseases and the emotional trauma associated with adolescent sexual activity. Students shall be advised that teenage sexual activity places them at a higher risk of dropping out of school because of the consequences of sexually transmitted diseases and unplanned pregnancy.
2. Stress that sexually transmitted diseases are serious, possible health hazards of sexual activity. Students shall be provided with the latest medical information regarding exposure to human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), human papilloma-virus (HPV), hepatitis and other sexually transmitted diseases.
3. Present students with information on contraceptives and pregnancy in a manner consistent with the provisions of federal abstinence education law.
4. Include a discussion of the possible emotional and psychological consequences of preadolescent and adolescent sexual activity and the consequences of adolescent pregnancy, as well as the advantages of adoption, including the adoption of special needs children, and the processes involved in making an adoption plan.
5. Teach skills of conflict management, personal responsibility and positive self-esteem through discussion and role playing at appropriate grade levels to emphasize that the student has the power to control personal behavior. Students shall be encouraged to base their actions on reasoning, self-discipline, sense of responsibility, self-control and ethical considerations, such as respect for one's self and others. Students shall be taught not to make unwanted physical and verbal sexual advances or otherwise exploit another person. Students shall be taught to resist unwanted sexual advances and other negative peer pressure.
6. Advise students of the laws pertaining to their financial responsibility to children born in and out of wed lock and advise students of the provisions of Missouri law pertaining to statutory rape and statutory sodomy.
7. Teach students about the characteristics of and ways to identify sexual predators.
8. Teach students safe and responsible Internet use, including the dangers of online sexual predators, when using electronic communication methods such as the Internet, mobile phones, text messages, chat rooms, social media, e-mail and instant messaging.
9. Instill in students the importance of having open communication with responsible adults, reporting any inappropriate situation, activity or abuse to a responsible adult and, depending on intent and content, to local law enforcement, the Federal Bureau of Investigation (FBI) or the National Center for Missing and Exploited Children's "CyberTipline."
10. Explain the potential consequences, both personal and legal, of inappropriate text messaging and sexting, even among friends.

11. Teach students sexual harassment, sexual violence, and consent.

The district will not permit a person or entity to offer, sponsor or furnish in any manner any course materials or instruction relating to human sexuality or sexually transmitted diseases to its students if the person or entity is a provider of abortion services. District personnel or district agents will not encourage students to have an abortion.

Students may be separated by gender for human sexuality instruction. Instruction in human sexuality is to be appropriate to the age of the students receiving such instruction.

The district is required to notify the parent/guardian of each student enrolled in the district of the basic content of the district's human sexuality instruction to be provided to the student and of the parent's/guardian's right to remove the student from any part of the district's human sexuality instruction. The district is required to make all curriculum materials used in the district's human sexuality instruction available for public inspection as a public record prior to the use of such materials in actual instruction.

Please refer to Board Policy IGAEB for more information.

NETWORK/INTERNET ACCEPTABLE USE POLICY

Technology Usage

The Platte County R-3 School District recognizes the educational and professional value of electronics-based information technology, both as a means of access to enriching information and as a tool to develop skills that students need.

The district's technology exists for the purpose of maximizing the educational opportunities and achievement of district students. The professional enrichment of the staff and Board, and increased engagement of the student's families and other patrons of the district are assisted by technology, but are secondary to the ultimate goal of student achievement.

Use of technology resources in a disruptive, manifestly inappropriate or illegal manner impairs the district's mission, squanders resources, and shall not be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to the district's technology resources. Development of students' personal responsibility is itself an expected benefit of the district technology program.

Definitions

For the purposes of this policy and related regulation, procedures, and forms, the following terms are defined:

User-any person who is permitted by the district to utilize any portion of the district's technology resources, including, but not limited to students, employees, School Board members, and agents of the school district.

User Identification (ID)-any identifier that allows a user access to the district's technology resources, or to any program, including, but not limited to, e-mail and Internet access.

Password-a unique word, phrase or combination of alphabetic, numeric and non-alphanumeric characters used to authenticate a user ID as belonging to a user.

Technology Administration

The Board directs the superintendent or designee to create rules and procedures governing technology usage in the district to support the district's policy, as needed.

The Board directs the superintendent or designee to assign trained personnel to maintain the district's technology in a manner that will protect the district from liability and will protect confidential student and employee information retained or accessible through district technology resources. Trained personnel shall establish a retention schedule for the regular archiving or deletion of data stored on district technology resources in accordance with the *Public School District Retention Manual* published by the Missouri Secretary of State. Administrators of computer resources may suspend access to and/or availability of the district's technology resources to diagnose and investigate network problems or potential violations of the law or district policies, regulations and procedures.

User Identification & Network Security

The district's technology resources may be used by authorized students, employees, School Board members and other persons such as consultants, legal counsel, and independent contractors.

Use of the district's technology resources is a privilege, not a right. No student, employee, or other potential user will be given an ID, password or other access to district technology if he/she is considered a security risk by the superintendent or designee.

Users must adhere to district policies, regulations, procedures, and other district guidelines. All users shall immediately report any security problems or misuse of the district's technology resources to an administrator or teacher.

User Agreement & Privacy

Unless authorized by the superintendent or designee, all users must have an appropriately signed *user agreement* on file with the district before they are allowed access to district technology resources. All users must agree to follow the district's policies, regulations and procedures.

In addition, all users must recognize that they do not have a legal expectation of privacy in any electronic communication or other activities involving the district's technology. A user ID with email access, if granted, is provided to users of the district's network and technology resources only on condition that the user consents to in his or her *User Agreement* to interception of or access to all communications accessed, sent, received or stored using district technology.

Content Filtering & Monitoring

The district will monitor the online activities of minors and operate a technology protection measure ("filtering/blocking device") on the network and/or all computers with Internet access, as required by law. The filtering/blocking device will protect against access to visual depictions that are obscene, harmful to minors and child pornography, as required by law. Because the district's technology is a shared resource, the filtering/blocking device will apply to all computers with Internet access in the district. Filtering/Blocking devices are not foolproof, and the district cannot guarantee that users will never be able to access offensive materials using district equipment. Evasion or disabling, or attempting to evade or disable, a filtering/blocking device installed by the district is prohibited.

The superintendent, designee or the district's technology administrator may disable the district's filtering/blocking device to enable an adult user access for bona fide research or for other lawful purposes. In making decisions to disable the district's filtering/blocking device, the administrator shall consider whether the use will serve a legitimate educational purpose or otherwise benefit the district.

Closed Forum

The district's technology resources are not a public forum for expression of any kind and are to be considered a closed forum to the extent allowed by law.

The district's web page will provide information about the school district, but will not be used as an open forum. The district's webpage may include the district's address, telephone number, and an e-mail address where members of the public may easily communicate concerns to the administration and the Board.

All expressive activities involving district technology resources that students, parents and members of the public might reasonably perceive to bear the imprimatur of the school, and that are designed to impart particular knowledge or skills to student participants and audiences, are considered curricular publications. All curricular publications are subject to reasonable prior restraint, editing and deletion on behalf of the school district for legitimate pedagogical reasons.

All other expressive activity involving the district's technology are subject to reasonable prior restraint and subject matter restrictions as allowed by law and Board policies.

Technology Safety

Student Users

No student will be given access to the district's technology resources until the district receives a *user agreement* signed by the student and the student's parent(s), guardian(s) or person(s) standing in the place of a parent. Students who are 18 or who are otherwise able to enter into an enforceable contract may sign the *user agreement* without additional signatures. Students who do not have a *user agreement* on file with the district may be granted permission to use district technology by the superintendent or designee.

Privacy

A user does not have a legal expectation of privacy in the user's electronic communications or other activities involving the district's technology resources.

All district technology resources are considered school property. The district may maintain or improve technology resources at any time. The district may remove, change or exchange hardware or other technology between buildings, classrooms, employees,

students or any other user at any time, without prior notice. Authorized district personnel may load or delete new programs or information, install new equipment, upgrade any system or enter any system to correct problems at any time.

The district may examine all information stored on district technology resources at any time. The district may monitor employee and student technology usage. Electronic communications, all data stored on the district's technology resources, and downloaded material, including files deleted from a user's account, may be intercepted, accessed or searched by district administrators or designees at any time.

Technology Usage

Use of the district's technology resources is a privilege, not a right. A user's privileges may be suspended pending an investigation concerning use of the district's technology resources. Any violation of district policy, regulations or procedures regarding technology usage may result in temporary, long-term or permanent suspension of user privileges.

The administration may use disciplinary measures to enforce district policy, regulations and procedures. Employees may be disciplined or terminated, and students suspended or expelled, for violating the district's policies, regulations and procedures. Any attempted violation of district policy, regulations or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation. Please review Board Policy EHB for specific information regarding District technology usage.

Access does not include endorsement of content or the accuracy of the information obtained.

Electronic Communication between Staff Members and Students

Staff members are encouraged to communicate with students and parents/guardians for educational purposes using a variety of effective methods, including electronic communication. STUDENT DISCIPLINE-BOARD POLICY JG

It is essential that the district maintain a classroom environment that allows teachers to communicate effectively with all students in the class and allows all students in the class to learn. To assist district staff in maintaining the necessary classroom environment, the Board of Education has created a discipline code that addresses the consequences, including suspension or expulsion, for students whose conduct is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of other students.

The comprehensive written code of conduct of the district is composed of this policy and includes, but is not limited to, the following policies, procedures and regulations: JG., JG-R1, JGA, JGB, JGD, JGE and JGF. A copy of the district's comprehensive written code of conduct will be distributed to every student and the parents/guardians of every student at the beginning of each school year and will be available in the superintendent's office during normal business hours. Students and their parents/guardians should review these policies, procedures and regulations upon receiving them at the beginning of the school year.

Application

These policies, regulations and procedures will apply to all students in attendance in district instructional and support programs as well as at school-sponsored activities. Off-campus misconduct that adversely affects the educational climate will also be subject to these policies, regulations and procedures. Students who have been charged, convicted or pled guilty in a court of general jurisdiction for commission of a felony may be suspended in accordance with law.

The Board authorizes the immediate removal of a student upon a finding by a principal or superintendent that the student poses a threat of harm to self or others, as evidenced by the prior conduct of such student. Any such removal will be subject to the appropriate due process procedures and in accordance with law.

No student may be confined in an unattended locked space except in an emergency situation while awaiting the arrival of law enforcement personnel. For the purpose of this policy, a student is unattended if no person has visual contact with the student, and a locked space is a space that the student cannot reasonably exit without assistance.

Enforcement

Building principals are responsible for the development of additional regulations and procedures regarding student conduct needed to maintain proper behavior in schools under their supervision. All such regulations and procedures shall be consistent with Board-adopted discipline policies.

Teachers have the authority and responsibility to make and enforce necessary rules for internal governance in the classroom, subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom. All district staff are required to enforce district policies, regulations and procedures in a manner that is fair and developmentally appropriate and that considers the student and the individual circumstances involved.

All employees of the district shall annually receive instruction related to the specific contents of the district's discipline policy and

any interpretations necessary to implement the provisions of the policy in the course of their duties including, but not limited to, approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

Corporal Punishment-Board Policy JGA

No person employed by or volunteering on behalf of the Platte County R-3 School District shall administer or cause to be administered corporal punishment upon a student attending district schools.

A staff member may, however, use reasonable physical force against a student without advance notice to the principal, if it is essential for self-defense, the preservation of order, or for the protection of other persons or the property of the school district.

Detention and In School Suspension-Board Policy JGB

Detention or an in school suspension (ISS) program provides principals with additional alternatives for dealing with disciplinary problems. The principal, or principal's designee, will determine the time and length of the detention or in school suspension.

Student Suspension and Expulsion-Board Policy JGD

The following procedures apply to all students. However, additional procedures for discipline for students with disabilities are sometimes required, as discussed in policy JGE, Discipline of Students with Disabilities.

The Board of Education believes that the right of a child to attend free public schools carries with it the responsibility of the child to attend school regularly and to comply with the lawful policies, rules and procedures of the school district. This observance of school policies, rules and procedures is essential for permitting others to learn at school.

Therefore, the administration may exclude a student from school because of violation of school rules and procedures, conduct which materially or substantially disrupts the rights of others to an education, or conduct which endangers the student, other students or the property of the school. Furthermore, if a student poses a threat to self or others, as evidenced by the prior conduct of such student, the administration may immediately remove the student from school. Such actions will be taken in accordance with due process and with due regard for the welfare of both the student and the school.

The terms "suspension" and "removal" refer to an exclusion from school that will not exceed a specific period of time and shall be subject to the due process procedures set forth for "suspensions" in this policy. The term "expulsion" refers to exclusion for an indefinite period. The district may honor suspensions and expulsions from another in-state or out-of- state school district including a private, charter or parochial school or school district pursuant to law and policy JEC, Student Admissions. Before making any decision to honor such suspensions or expulsions, the superintendent or designee will consider whether the student has received the due process required by law.

Suspensions

In Missouri, a principal may suspend a student for up to ten (10) school days. A superintendent (or designee) may suspend a student for up to 180 school days. Procedures for suspending a student are outlined below.

1. Before suspending a student, a principal or superintendent must (a) tell the student, either orally or in writing, what misconduct he or she is accused of; (b) if the student denies the accusation, explain, either orally or in writing, the facts that form the basis of the proposed suspension; and (c) give the student an opportunity to present his or her version of the incident.
2. If the principal or superintendent concludes that the student has engaged in misconduct punishable by suspension, the procedures described below apply. If the student has a disability as defined in the Individuals with Disabilities Education Act (IDEA) as amended or Section 504 of the Rehabilitation Act, additional procedural safeguards described in the policy dealing with the discipline of students with disabilities apply.
3. The principal or superintendent should determine whether the student should be suspended or whether less drastic alternative measures would be appropriate. In many cases, the principal or superintendent may decide not to suspend a student unless conferences (between the teacher, student and principal and/or between the parent, student and principal) have been held and have failed to change the student's behavior.
4. If suspension is imposed, the student's parents or guardians must be promptly notified of the suspension and the reasons for the action.
5. Any suspension by a principal must be reported, immediately and in writing, to the superintendent, who may revoke the suspension, either part or in full, at any time.
6. If a student is suspended for more than ten (10) school days, the following rules also apply:
 - a. The student, his or her parents, guardians or others having custodial care have a right to appeal the superintendent's decision to the Board or a committee of the Board appointed by the Board president.
 - b. If the student gives notice that he or she wishes to appeal the suspension to the Board, the suspension shall be

- stayed until the Board renders its decision, unless in the superintendent's judgment, the student's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process.
- c. All notices of appeal shall be transmitted, either by the appealing party or by the superintendent, to the secretary of the Board. Oral notices, if made to the superintendent, shall be reduced to writing and communicated to the secretary of the Board.
 - d. The superintendent, when notified of an appeal, shall promptly transmit to the Board a full written report of the facts relating to the suspension, the action taken by the superintendent, and the reasons for the action.
 - e. Upon receipt of a notice of appeal, the Board will schedule a hearing and within a reasonable time in advance of the scheduled date, will notify, by certified mail, the appealing party of the date, time and place of the hearing and of the right to counsel, to call witnesses, and to present evidence at the hearing.
 - f. Hearings of appealed suspensions will be conducted as described in the section of this policy dealing with student disciplinary hearings.

Suspensions for More Than 180 School Days and Expulsions

Only the Board of Education may expel a student or suspend a student for more than 180 school days. The applicable procedures are outlined below.

1. Before recommending to the Board that a student be expelled or suspended for more than 180 school days, the superintendent must (a) tell the student, either orally or in writing, what misconduct he or she is accused of; (b) if the student denies the accusation, explain, either orally or in writing, the facts that form the basis of the proposed suspension/expulsion; and (c) give the student an opportunity to present his or her version of the incident.
2. If the superintendent concludes that the student has engaged in misconduct and should be expelled or suspended for more than 180 school days, the procedures described below apply unless the student has a disability. (In the case of a student with a disability, the procedures described in the policy dealing with the discipline of students with disabilities shall apply.)
3. The superintendent will recommend to the Board that the student be expelled or suspended for more than 180 school days. The superintendent may also immediately suspend the student for up to 180 school days.
4. Upon receipt of the superintendent's recommendation, the Board will follow the procedures described in the section of this policy dealing with student disciplinary hearings.
5. If the student is expelled, he or she may later apply to the Board for readmission. Only the Board can readmit an expelled student.

Student Discipline Hearings

The Board of Education may originate student discipline hearings upon recommendation of the superintendent. In such cases, the Board of Education will review the superintendent's report and determine whether to conduct a disciplinary hearing. In addition, student discipline hearings also will be held upon a written request of the student or the student's parents, to consider appeals from student suspensions in excess of ten (10) school days. A discipline hearing will always be held in cases of suspensions in excess of 180 school days or expulsions, unless after meeting with the superintendent or designee, the parent or guardian waives, in writing, the right to an expulsion hearing.

In all hearings, whether initiated by the Board of Education or by appeal, the following procedures will be adhered to:

1. The student and the parents/guardians will be advised of the charges against the student; their right to a Board hearing; the date, time and place of the hearing; their right to counsel; and their procedural rights to call witnesses, enter exhibits and cross-examine adverse witnesses. All such notifications will be made by certified mail, addressed to the student's parents or guardians. The Board shall make a good-faith effort to have the parents or guardians present at the hearing.
2. Prior to the Board hearing, the student and the student's parents/guardians will be advised of the identity of the witnesses to be called by the administration and advised of the nature of their testimony. In addition, the student and the student's parents/guardians will be provided with copies of the documents to be introduced at the hearing by the administration.
3. The hearing will be closed unless the Board decides otherwise. The hearing will only be open with parental consent. At the hearing, the administration or their counsel will present the charges and such testimony and evidence to support such charges. The student, his or her parents/guardians or their counsel shall have the right to present witnesses, introduce exhibits, and to cross-examine witnesses called in support of the charges.
4. At the conclusion of the hearing, the Board of Education shall deliberate in executive session and shall render a decision to dismiss the charges; to suspend the student for a specified period of time; or to expel the student from the schools of the district. The administration or its counsel, by direction of the Board of Education, shall promptly prepare and transmit to the parents/guardians a written notice of the decision.

Remedial Conference

Prior to the readmission or enrollment of any student who has been suspended out of school or expelled in accordance with this policy for any "act of school violence" as defined in § 160.261.2, RSMo., and Board policy JGF, a conference must be held to review the student's conduct that resulted in the suspension or expulsion and any remedial actions needed to prevent future

occurrences of such conduct or related conduct. The conference shall include the appropriate school officials including any teacher directly involved with the conduct that resulted in the suspension or expulsion, the student, and the parent or guardian of the student or any agency having legal jurisdiction, care, custody or control of the student. The Board of Education shall notify, in writing, the parents or guardians and all other parties of the time, place and agenda of any such conference. Failure of any party to attend this conference shall not preclude holding the conference. This requirement applies to enrolling students transferring from another school as well, regardless of whether the "act of school violence" was committed at a public school or at a private school in Missouri, provided that such act shall have resulted in the suspension or expulsion of such student in the case of a private school.

Key Terms

Detention: Assigned by teachers or administration. A detention is a 45-minute detention that is served with the assigning teacher. It is the student's responsibility to be on time, have appropriate materials to work on, exercise appropriate behavior, and make transportation arrangements. Missing a detention will result in an additional detention assigned by the teacher. Missing any of the additionally assigned detentions will result in administrative intervention and consequences. Detentions can also be given during the student's lunch period.

Suspensions: A suspension may be in-school or out-of-school. An in-school suspension requires a student to remain in a separate suspension area during each day of the suspension. Students will be required to work on classroom assignments during the time they are attending in-school suspension. Students who are suspended will still be held accountable for any work they miss during their suspension. Suspended students will receive full credit for any homework they miss during their suspension as long as it is turned in by the assigned due date.

In-School Suspension: Assigned by the administration. Students will not attend their regular class schedule. Studies may be completed under the supervision of assigned personnel. Students are not allowed interaction with other students, must stay on task, and should complete work assigned. While in ISS, students will not be permitted to go to the cafeteria during their normal lunch period. Students can bring their own lunch or purchase a sack lunch from the cafeteria the morning of their assigned ISS day. Students assigned ISS are not permitted to participate in after-school activities until their suspension has been completed. Students who do not follow the rules/procedures of ISS will be sent home for the remainder of the day and will have to make up their ISS the next day. It is expected that students complete all of their homework for the day while in ISS.

Out of School Suspension: Assigned by the administration. The student is not to be on school grounds before, during, or after school hours until the full suspension is completed. This includes all extracurricular activities, dances, and performances sponsored by the school. A conference between parents, student, and administration must occur before the student is admitted back to his or her regular class schedule. Student work may be completed for credit while suspended.

Expulsion: -See details regarding expulsion in board policy JGD.

Discipline of Students with Disabilities-Board Policy JGE

It is the goal of the Platte County R-3 School District to provide a safe and productive learning environment for all students. The district does not believe in a double standard for misbehavior and holds the welfare and safety of all persons in the district in highest regard. Students with disabilities will be disciplined in accordance with the district's discipline code applicable to all students, subject to the modifications mandated by law. All students, including those with disabilities, will be referred for law enforcement action when required by law and when their conduct constitutes a crime.

The district will comply with all state and federal laws governing the discipline of students with disabilities, including the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, applicable regulations and state and local plans for compliance with the law. In addition to the process outlined in special education law, students with disabilities will receive the same due process afforded other students.

The Board delegates to the superintendent or designee the authority to seek the removal of a student with a disability as allowed by federal or state law to an alternative educational setting through the state hearing process or to seek a court injunction ordering removal or a different educational placement.

The superintendent or designee will provide all district employees training on violence prevention, the district's discipline code and the legal requirements for disciplining students with disabilities. The Board delegates to the superintendent or designee the authority to contact the district's legal counsel for legal advice or training on the district's responsibilities.

Weapons in School-Board Policy JFCJ

The Board recognizes the importance of preserving a safe educational environment for students, employees and patrons of the district. In order to maintain the safety of the educational community, the district will strictly enforce the necessary disciplinary consequences resulting from the use or possession of weapons on school property. No student may possess a weapon on school property at any time, except as specifically authorized during a school-sponsored or school-sanctioned activity permitting

weapons. The school district will provide secured storage of student firearms if necessary.

School property is defined as: Property utilized, supervised, rented, leased, or controlled by the school district including but not limited to school playgrounds, parking lots and school buses, and any property on which any school activity takes place.

A weapon is defined to mean one or more of the following:

1. A firearm as defined in 18 U.S.C. § 921.
2. A blackjack, concealable firearm, firearm, firearm silencer, explosive weapon, gas gun, knife, knuckles, machine gun, projectile weapon, rifle, shotgun, spring gun, switchblade knife, as these terms are defined in § 571.010, RSMo.
3. A dangerous weapon as defined in 18 U.S.C. § 930(g)(2).
4. All knives and any other instrument or device used or designed to be used to threaten or assault, whether for attack or defense.
5. Any object designed to look like or imitate a device as described in 1-4.

Pursuant to the Missouri Safe Schools Act and the federal Gun-Free Schools Act of 1994, any student who brings or possesses a weapon as defined in #1 or #2 above on school property will be suspended from school for at least one (1) calendar year or expelled and will be referred to the appropriate legal authorities. The suspension or expulsion may be modified on a case-by-case basis upon recommendation by the superintendent to the Board of Education. Students who bring or possess weapons as defined in #3, #4 and #5 and not otherwise included in #1 and #2, will also be subject to suspension and/or expulsion from school and may be referred to the appropriate legal authorities.

Students with disabilities who violate this policy will be disciplined in accordance with policy JGE.

This policy will be submitted annually to the state Department of Elementary and Secondary Education along with a report indicating any suspensions or expulsions resulting from the possession or use of a firearm as defined in 18 U.S.C. §921. The report will include the name of the school in which the incidents occurred, the number of students suspended or expelled and the types of weapons involved.

Discipline Reporting and Records-Board Policy JGF

In compliance with state law, the Board of Education establishes clear channels of communication between teachers, administrators, law enforcement officials and other schools concerning acts of school violence and other behaviors that endanger the welfare or safety of students, staff or patrons of the district. The purpose of this policy is to designate specific actions committed by students that must be reported to teachers, administrators and/or law enforcement officials as well as those actions that must be documented in a student's discipline record.

Definitions

In addition, any portion of a student's individualized education program (IEP) that is related to demonstrated or potentially violent behavior shall be provided to any teachers and other district employees with a need to know the information.

The superintendent or designee will inform district employees with a need to know of any criminal act committed or allegedly committed by a student in the district that is reported to the district by a juvenile officer or an employee of the Children's Division (CD) of the Department of Social Services, sheriff, chief of police or other appropriate law enforcement entity in accordance with state law. Such reports shall not be used as the sole basis for denying educational services to a student

Reporting to Law Enforcement Officials

School administrators are required by law to report certain crimes to law enforcement. In an effort to support timely and accurate reporting, the Board encourages all employees who have information about any criminal act to share that information with their supervisors. The Board expects employees to share information regarding serious criminal acts, and employees must report criminal acts when required by law and Board policy.

Any crime listed in this section, or any act that if committed by an adult would be a crime listed in this section that is committed on school property, on any school transportation or at any school activity must be reported immediately by the appropriate school administrator to the appropriate law enforcement entity. All employees shall immediately report to the principal any incident that constitutes a crime, including any incident in which a person is believed to have committed an act that if committed by an adult would be first-, second- or third- degree assault, rape in the second degree or sodomy in the second degree against a student or school employee, while on school property, school transportation or at school activities. Employees shall also inform the principal if a student is discovered to possess a controlled substance or weapon in violation of the district's policy. The principal shall immediately report these listed offenses to the appropriate law enforcement entity and the superintendent. However, if the district has entered into an agreement with law enforcement regarding the reporting of third-degree assaults, the district will report third-degree assaults to law enforcement in accordance with that agreement.

School districts may report or disclose education records to law enforcement entities and juvenile justice authorities if the disclosure concerns the law enforcement entities or juvenile justice authority's ability to effectively serve, prior to adjudication, the student whose records are released. The officials and authorities to whom such information is disclosed must comply with applicable restrictions set forth in state and federal law.

Reporting Third-Degree Assault

The superintendent and the appropriate local law enforcement entity may develop a written agreement outlining the procedure for reporting any incident in which a student is believed to have committed an act that if committed by an adult would be third-degree assault. If such an agreement exists in the district, the principal shall report third-degree assaults to the appropriate local law enforcement entity in accordance with the agreement.

Student Discipline Records

The Board of Education directs the superintendent or designee to compile and maintain records of any serious violation of the district's discipline policy for each student enrolled in the district. Such records shall be made available to all district employees with a need to know and shall be provided to any school district in which the student subsequently attempts to enroll within five business days of receiving the request, in accordance with state law. If a student is placed in another school by the CD, the records

will be transferred to the new school within two business days after notification by the CD. Personally identifiable student records will only be released or destroyed in accordance with state and federal law.

Pursuant to Department of Secondary and Elementary Education (DESE) data reporting requirements, the district shall report rates and durations of, and reasons for, student suspensions of ten days or longer and expulsions.

Confidentiality

Any information received by a school district employee relating to the conduct of a student shall be received in confidence and used for the limited purpose of assuring that good order and discipline are maintained in the schools.

Liability

Teachers and authorized district personnel, including volunteers selected with reasonable care by the district, shall not be civilly liable when acting in accordance with the Board's policies, including the Board's discipline policies, or when reporting acts of school violence or threatened acts of school violence to the appropriate supervisor or other person, pursuant to law and district policy.

Student Discipline - Board Policy JG-R1

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, any aggravated circumstance of any offense, or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or Board of Education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on district property, including playgrounds, parking lots and district transportation, or at a district activity, whether on or off district property. The district may also discipline students for off-campus conduct that negatively impacts the educational environment, to the extent allowed by law.

Reporting to Law Enforcement

It is the policy of the Platte County R-3 School District to report all crimes occurring on district property to law enforcement, including, but not limited to, the crimes the district is required to report in accordance with law. A list of crimes the district is required to report is included in policy JGF. The principal shall also notify the appropriate law enforcement agency and superintendent if a student is discovered to possess a controlled substance or weapon in violation of the district's policy. In addition, the superintendent shall notify the appropriate division of the juvenile or family court upon suspension for more than ten days or expulsion of any student who the district is aware is under the jurisdiction of the court.

Documentation in Student's Discipline Record

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools and in accordance with law and policy JGF.

Conditions of Suspension, Expulsion and Other Disciplinary Consequences

All students who are suspended or expelled, regardless of the reason, are prohibited from participating in or attending any district-sponsored activity, or being on or near district property or the location of any district activity for any reason, unless permission is granted by the superintendent or designee. When appropriate, the district may prohibit students from participating in activities or restrict a student's access to district property as a disciplinary consequence even if a student is not suspended or expelled from school. Likewise, a student may become ineligible for or be required to forfeit any honors and awards as a disciplinary consequence. In accordance with law, any student who is suspended for any offenses listed in § 160.261, RSMo., or any act of violence or drug-related activity defined by policy JGF as a serious violation of school discipline, shall not be allowed to be within 1,000 feet of any district property or any activity of the district, regardless of whether the activity takes place on district property, unless one of the following conditions exist:

1. The student is under the direct supervision of the student's parent, legal guardian, custodian or another adult designated in advance, in writing, to the student's principal by the student's parent, legal guardian or custodian, and the superintendent or designee has authorized the student to be on district property.
2. The student is enrolled in and attending an alternative school that is located within 1,000 feet of a public school in the district.
3. The student resides within 1,000 feet of a public school in the district and is on the property of his or her residence. If a student violates the prohibitions in this section, he or she may be suspended or expelled in accordance with the offense, "Failure to Meet Conditions of Suspension, Expulsion or Other Disciplinary Consequences," listed below.

Prohibited Conduct

The following are descriptions of prohibited conduct and potential consequences for violations. Building-level administrators are authorized to more narrowly tailor potential consequences as appropriate for the age level of students in the building within the ranges established in this regulation. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft or property damage; oral, written or electronic communication, including name-calling, put-downs, extortion or threats; or threats of reprisal or retaliation for reporting such acts.
